

**SUPPLEMENTAL REPORT TO MARCH 24, 2021 PRESS RELEASE**

**PAYTON PLANAR MAGNETICS**  
**DISTRIBUTION OF DIVIDEND ON June 17, 2021**

Ness Ziona (Israel) - On March 24, 2021, the Board of Directors of Payton Planar Magnetics announced distribution of a gross dividend of USD 0.42 per share or an aggregate amount of USD 7,422 thousands as dividend for the financial years 2019 & 2020.

The dividend is submitted to one single tax of 15%<sup>1</sup>. Accordingly, the gross dividend of USD 0.42 per share leads to a net dividend of USD 0.357 per share. The rate of the above tax deduction is with accordance to tax treaties between Israel and the country of residence of the shareholder (Belgium).

Since the company is listed on the Belgian market and the Euro is the customary currency in Belgium, the payment will be done in Euro.

The date for the reimbursement will be Thursday, June 17, 2021. Accordingly, all holders of shares at the close of the trading hours of Euronext Brussels on record date Wednesday June 16, 2021 will be entitled to receive a dividend. The payment will be completed by the custodian financial institution on the shareholders' accounts.
